

Amendments to the Drawings

The correction to Fig. 2 aligns the structure of the Zip Code Table 260 to its corresponding Zip Code Table 460 in Fig. 4 (*i.e.*, by adding the "state_id" column to table 260).

The corrections to Fig. 5 add a missing comma to the entry in the first row of the last column of Street Table 530, and replace "M" with "m" in this same table cell.

The correction to Fig. 10 aligns the terminology in Blocks 1060 and 1065 with the terminology used in the second column of the Street Table 530 of Fig. 5 (*i.e.*, by replacing "Starting_Pt" with "Start_Pt" in Blocks 1060 and 1065).
